

## Downstairs — heading sources (forward axis = +Y)

Heading (deg, unwrapped)

- |                                                |                                     |
|------------------------------------------------|-------------------------------------|
| — Orientation quaternion (OS fusion)           | — Gyro only, integrated (no filter) |
| — Accel + gyro, complementary filter (no mag.) | — Gyro + magnetometer, EKF          |
| — Accel + gyro, EKF (no mag.)                  |                                     |
